

# My February 'F'rog

You will need:

Paper

Paint / Colours

Black felt tip

This is our last online art session as next week we will be back at school so there will be no online art. May I just take this opportunity to thank you for all your time and effort with your children and my art sessions, I really hope you have enjoyed them as much I have delivering them to you.

People appreciate art in different ways, whether it's music, fashion, poetry, and paintings. Art helps us emotionally, financially, psychologically, and even helps to shape individual and collective personality. There are so many reasons why art is important in the world, today and always. So, let's always embrace and celebrate all your achievements no matter how big or small!

Have a look at this week's videos and enjoy your achievements in creating some fabulous frogs!
