

Year 3/4 - Snail Blending

Blending colours means creating an area between two **colours** where they gradually mix, so you get a gentle transition from one **colour** to the other.

Create your colour blend using your mediums (whether they are dry or wet; whether it is paint, oil pastels, or crayons).

How large this area is depends entirely on what you're painting/colouring in. It can be a narrow, relatively quick transition, or a slow wide one.

Look at the videos below and have a go at some blending.

<https://youtu.be/JKDI3kqYoNY>

Be sure to show me what you have done on Class Dojo.
Take care everyone!
