

# Year 2 Easter Holidays Topic Work

To celebrate our animal topic from this half term, the children can pick as many of the activities below to complete as they wish. There's no pressure to do all of them, one or two is fine. Remember the apps will still be working over the Easter holidays, including; TTRS, Spelling Shed and Reading Eggs. Your teachers will still be popping online now and again to see your work if you wish to pop onto Class Teams and Class Dojo.

## Option 1:

Imagine you have come downstairs to this sight!

- You can only ask the octopus 3 questions. What would you ask and why?
- Write the story of how the octopus came to be here and what happens next?
- Role play a conversation you might have with the octopus. What might you say?

## Option 2

Create a 3D box model of an animal using household items; such as cereal boxes, egg boxes, bottles, whatever you can find... or even playdough or lego!

## Option 3

Create some wild art by making an animal using natural materials, such as; leaves, sticks, acorns, etc.

## Option 4

Pick an animal or habitat and create a factfile, this could be in a booklet form, poster or you could even video yourself talking about your chosen animal and habitat.

## Option 5

Create a 3D box model of a habitat.
